"Well, this is the last for a few years; (refers to Christmas in Germany) next time in London. I have really never thought of that! Expected some recognition or climax in later years in Washington. But things developed very sudden and the British were very outspoken to their personal suggestion! So our boss made the decision to send me whilst he is still in office and call me back before he leaves. This means, that I hope to stay over there for some three years at least. Yesterday we had a very nice Brucke dinner and dance. Putschen and I were thinking about our feasts and the easy and cosy, modest way you took care of us all. Tomorrow is the traditional private dinner but without Putschen and me. Only Dr. Wagner, Wendt. The Dr. regrets it very much but I honestly do not, since this has been our very personal "hohepunkt" with you both and before with Tom and one should not and cannot transplant the personal feeling. Besides, we are bound to leave....."

".....I want also to thank you again for the wonderful and impressive trip. I would do because I know that was your work..... we are very happy here mainly for two reasons, first of all to remember every ____ (?) that there is between my beloved chief and myself a distance of more than 700 kilometers and second to live in the neighborhood of a beach....."
